Policies

Recording and Media Policies
GSCA sessions may be recorded. Audience members are advised that attendance at these sessions gives GSCA their implicit permission to be recorded. Private video or audio recording during film presentations or professional development sessions is prohibited without prior authorization from GSCA. Industry press has access to all sessions and events. GSCA will not be held responsible for any delegate commentary made in the presence of press/media.

Photography
Photos of attendees will be taken throughout the event. These photos may be used in any manner or media, including but not limited to the GSCA website, publications, advertisements, and social media outlets. If you would prefer that your photo not be used for these purposes, please contact Kelly Germain at kelly@giantscreencinema.com.

Amazon Adventure

Presented in 3D

RELEASE DATE: April 14, 2017
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized

15/70, Fulldome Digital
LENGTH: 45:29 and 25:00 (45:29 at Film Expo)
PRODUCER/DISTRIBUTOR: SK Films
CONTACT: Amber Hawtin, ahawtin@skfilms.ca
WEBSITE: amazonadventurefilm.com

Amazon Adventure tells the epic, true story of explorer Henry Bates’ 11-year journey through the visually stunning and bio-diverse Amazon rainforest as a young man who risks his life for science. Experience the compelling clues Bates unearthed in his major science discovery of the rare phenomenon of mimicry, whereby certain animals adopt the look of others which helps them deceive predators and gain an advantage to survive. Bates, the scientific hero you’ve likely never heard of, made other crucial contributions: identifying 8,000 species new to science, most importantly, putting forward the first ever case for the creation of a new species which Charles Darwin called the “beautiful proof” for his theory of Natural Selection. Viewers will be wowed by over 80 different animals, mind-boggling examples of camouflage and mimicry and inspired by Bates’ endless curiosity and determination to explore and understand the natural world around him.

America’s Musical Journey

Presented in 3D

RELEASE DATE: February 16, 2018
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 40:00
PRODUCER/DISTRIBUTOR: MacGillivray Freeman Films
CONTACT: Patty Collins, pcollins@macfreefilms.com
WEBSITE: americamusicaljourney.com

Narrated by Academy Award winner Morgan Freeman, America’s Musical Journey celebrates the unique diversity of cultures and creative risk-taking that characterize America, as told through the story of its music. Follow Grammy Award-nominated singer/songwriter Aloe Blacc as he traces the roots of America’s music and follows the footsteps of Louis Armstrong through the colorful locales where American music was born. Visiting cities such as New Orleans, Chicago, New York, Nashville, Memphis, Miami, and more, audiences will experience paddle-wheeling up the Mississippi Delta, flash mob dancing in Chicago, and skydiving with Elvis impersonators in scenes shot exclusively for the giant screen. Along the way, they’ll discover the unique collision of cultures that gave birth to America’s music, culminating in a one-of-a-kind blend of sound, culture and innovation unlike anywhere else in the world. A MacGillivray Freeman film produced in association with Brand USA and presented by Expedia.

Australia’s Life in the Wild

Rough/Fine Cut
Presented in 2D

RELEASE DATE: 2018
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 42:59
PRODUCER: Arise Media and Archipelago Films
DISTRIBUTOR: SK Films
CONTACT: Amber Hawtin, ahawtin@skfilms.ca
WEBSITE: backyardwildernessfilm.com

Backyard Wilderness will surprise and entertain viewers with the unexpected wonders of nature that are right under our noses—in our own backyards. Spanning a seasonal year around a suburban home, the film displays a stunning array of unique wildlife images and behavior—all captured by cameras mounted inside dens and nests, and moving along the forest floor and pond bottom, to reveal its inhabitants in rare and breathtaking intimacy. We follow Katie, a young girl, and her modern family living next to the woods who are blind to the real-life spectacle around them, absorbed by an array of electronic devices in their busy lives. Katie gradually discovers the intricate secret that nature has hidden so close to her front door and we experience the joy she finds in her interactions with this new world. The film reminds us that Wi-Fi is not the only connection that matters and that sometimes in ordinary places, you can uncover extraordinary things that could transform you forever—you just need to step outside.

America’s Musical Journey

Presented in 3D

RELEASE DATE: March 21, 2018
FORMATS: 2D and 3D, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 40:00
PRODUCER: Wild Pacific Media & Definition Films
DISTRIBUTOR: Distributed by K2 Communications and Distributed in Australia and New Zealand by Madman Entertainment
CONTACT: Mark Kresser, mark_kresser@k2communications.com; Ed Capelle, edwardcapelle@comcast.net

Crocodiles are the ultimate predators. They attack with stealth, are extremely aggressive and can grow up to 7 meters in length. Up here, they have even been known to attack and pull fishermen out of boats. This film will carry the viewers across the whole Top End of Australia, from the wild Kimberley coast through mysterious and rarely seen Arnhem Land and then deep into the world’s oldest rainforest in Cape York. Come with us on an epic journey through some of the wildest landscapes on Earth as we take you deep into crocodile’s world. Australia: Life in the Wild will be shot in magnificent 8K for IMAX and other giant screen theaters. Specialized underwater camera rigs have been designed to get the audience closer than ever before to the most powerful jaws on Earth.

Conquest of the Skies 3D

Presented in 3D

RELEASE DATE: Spring 2017
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 39:43 and 20:00 (39:43 at Film Expo)
PRODUCER: Colossus Productions
DISTRIBUTOR: Serengeti Entertainment
The ability to fly is one of the greatest wonders in the natural world. Millions of creatures soar above our heads today. But how did animals make the incredible transition from land to air? Conquest of the Skies uses the very latest science and stunning special effects to uncover the 320-million-year story of flight—and it’s not simply about birds. Using advanced 3D filming technology, we capture the beauty and excitement of the whole world of flying creatures, from the fastest predatory falcons to the most acrobatic of insects, night flyers like owls and bats, and the soaring and gliding specialists capable of traveling huge distances. Audiences will enter the truly amazing world of these animal aviators and leave the theater both stunned by the spectacle and thrilled by the story of how animals rose up and conquered the skies.

**In Saturn’s Rings**
*Rough/Fine Cut*  
Presented in 2D  
**RELEASE DATE:** May 4, 2018  
**FORMATS:** 2D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital  
**LENGTH:** 40:00 and 22:00 (40:00 at Film Expo)  
**PRODUCER:** SV2 Studios  
**DISTRIBUTOR:** Big & Digital  
**CONTACT:** Tina Ratterman, tratterman@biganddigital.com  
**WEBSITE:** insaturnsrings.com  

Narrated by LeVar Burton, *In Saturn’s Rings* is a grand tour of the universe starring Saturn. 7.5 million mostly unseen images from the Cassini-Huygens Mission to Saturn, Sloan Digital Sky Survey, Hubble Telescope and Milky Way time lapses are brought to life in a ground-breaking epic immersive journey across space and time. From the earliest images after the Big Bang to the final photographs Cassini took before plunging to die in Saturn’s clouds, *In Saturn’s Rings* is, like space exploration itself, a journey of the heart, mind and spirit that moves audiences with awe-inspiring images and powerful music. *In Saturn’s Rings* contains some of the most amazing space footage ever, including a 10-day and night 5-camera Milky Way timelapse, a stunning view of millions of individual galaxies in a single frame, and a jaw-dropping flyover over Saturn’s moon Titan connected with locations on Earth with never-before-seen imagery. DCI-Compliant Digital and Laser available May 4th, IMAX Digital & Laser shortly after, and 15/70mm later in summer. Native fulldome digital Q3 2018.

**Mountain Quest**
*Rough/Fine Cut*  
Presented in 2D  
**RELEASE DATE:** 2018  
**FORMATS:** 2D and 3D, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital  
**LENGTH:** 37:07  
**PRODUCER:** Stranger Than Fiction Films  
**DISTRIBUTOR:** K2 Communications  
**CONTACT:** Mark Kresser, mark_kresser@k2communications.com; Ed Capelle, edwardcapelle@comcast.net  

A lone climber, suspended hundreds of feet in the air, struggles to find the next finger hold, defining progress in inches. The dramatic visuals immerse us in a gripping contest of
human determination versus the reality of gravity's potent grip. Mountain Quest explores the precarious relationship of humanity's quest to scale some of the world's highest places, while also revealing the scientific and technological advances that have enabled us to conquer these peaks, exposing the heartbeat of the human soul. A tapestry of jaw-dropping action, combined with rich STEM content—how climbing is a tug-of-war between friction and gravity, while skiing involves the same battle of forces in reverse. Educational insights about the engineering of climbing gear and skis, and the aeronautical effects of a wingsuit, are seamlessly integrated with dramatic visuals and action. The film will be narrated by Willem Dafoe and release early 2018.

**Oceans: Our Blue Planet**

**Presented in 3D**  
**RELEASE DATE:** March 16, 2018  
**FORMATS:** 2D and 3D, 15/70, IMAX Digital, IMAX Laser, Dome-customized 15/70  
**LENGTH:** 40:00 and 20:00 (40:00 at Film Expo)  
**PRODUCER:** BBC Earth and Alucia Productions  
**DISTRIBUTOR:** Giant Screen Films and BBC Earth  
**CONTACT:** Mark Katz, mkatz@gsfilms.com  
**WEBSITE:** bbcearth.com/oceans  
Oceans: Our Blue Planet is an extraordinary journey of discovery and wonder, transporting the audience to the deep, mysterious worlds of our oceans. Packed with drama, awe, and spectacle, we reveal untold stories of the ocean's most astonishing creatures. The oceans are the only place on earth where the rate of new scientific discovery is increasing, expanding our frontiers of knowledge and revealing richer diversity than we could ever have imagined. From the freezing shores of the Arctic to the balmy waters of the tropics and the ocean depths, we share these extraordinary new discoveries. Using revolutionary underwater and on-board filming technology, we'll dive into the giant void of the big blue, to explore the most spectacular locations, dramatic events and the intimate lives of the ocean's most extraordinary creatures. Through these encounters we'll also discover how we all depend on the health of this, the largest environment on earth.

**Pandas**  
**Presented in 3D**  
**RELEASE DATE:** April 6, 2018

**Pandas**, an IMAX® original film for the whole family, is a story of hope, friendship and survival. At China's Chengdu Panda Base, the scientist leading a successful captive breeding program is ready to take a bold new step. Inspired by the work of a black bear rehabilitator in New Hampshire, a team of U.S. and Chinese scientists collaborate on an innovative project to release captive-born pandas into the wild—using methods never previously tried with pandas. Captured with IMAX® Cameras, the film follows the journey of a young cub named Qian Qian as she leaves the comfort of the panda base behind and prepares for a life-changing journey into the misty mountains of Sichuan. Pandas is directed by David Douglas and Drew Fellman, the filmmakers behind Born To Be Wild and Island Of Lemurs: Madagascar. Fellman wrote and produced, with Douglas serving as director of photography.
**Planet Power**

**Planet Power** tells the story of electricity, from the first spark created by man’s hand to the largest power plants, the age of miracles to that of industry, from Benjamin Franklin’s kite to Solar Impulse, the first solar-powered plane capable of perpetual flight. Thus, it is also a story of pioneers, scientists and inventors, one that began 200 years ago, driven by innovation. Today, electricity is indispensable to mankind. Energy of choice for innovation and development, electricity is also the energy of our future, as long as it is produced in a cleaner and more sustainable way. By mixing traditional animation and CGI to spectacular aerial shots, Planet Power shows how renewable energy can help us fight climate change while improving our quality of life and protecting the environment. Now, thanks to clean technologies, the greatest forces of nature can help make our planet cooler and our future better.

**The Story of Earth**
*Presented in 3D*
**RELEASE DATE:** In digital March 2018 and 15/70 in April 2018

**WEBSITE:** thestoryofearth.film

This is the story of a remarkable planet, unlike any other yet found across deep space. Born from dying stars, it was sculpted by violent collisions in space. Yet, in an epic journey, this hostile ball of molten rock transformed itself into a nurturing environment. From it emerged forms of life, none of which have been found anywhere else in the universe. That planet is not millions of light years away either. You are standing on it right now. It is Earth. Stunning and complex visualizations based on the latest scientific modeling will take audiences back in time to the origins of our planet as we explore the extraordinary chain of events that made life not only possible but sustainable. Journey forward to today, to meet a team of geologists traveling the globe looking for clues that help us piece together what is, as far as we know, a unique story in our universe. From the producers of Hidden Universe and The Search of Life in Space. The film will be available in 2D and 3D, 15/70 and digital full dome, IMAX digital and IMAX laser and DCI compliant digital.

**Volcanoes**
*Rough/Fine Cut*
*Presented in 2D*
**RELEASE DATE:** Fall 2018
**FORMATS:** 2D and 3D, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-Compliant Laser, Dome-customized 15/70,
**LENGTH:** 42:00
**PRODUCER:** Digital Crossing Films
**DISTRIBUTOR:** SK Films
**CONTACT:** Amber Hawtin, ahawtin@skfilms.ca
**WEBSITE:** volcanoesthemovie.com

**Volcanoes – The Fires of Creation** is a tale of science, culture, and thrilling adventure. Earth is a planet born of fire. For billions of years volcanoes have helped create the world we know. From the continents, to the air we breathe, and even life itself, all have their origins in fire. These processes have created extraordinary ecosystems and wildlife habitats, from the home of mountain gorillas in Central Africa, to the shores of Hawaii, to the Serengeti and beyond—and continue to do so to this day. With over 500 active volcanoes, our Earth is bursting at the seams with these forces of mass construction. The story of volcanoes is the story of Earth’s creation, and the story of us. With explorer Carsten Peter, dodge boulders at the edge of an active volcano in Indonesia, descend to a lava lake in Vanuatu, visit a ghost town following an eruption, and look on in awe and wonder at volcanic mineral deposit fields in Ethiopia. Audiences will be on the edge of their seats as they discover molten worlds and exploding craters in this adrenaline-filled, immersive experience that only IMAX®/giant screen films can provide.

**We, The Marines**
*Presented in 2D*
**RELEASE DATE:** November 2017
**FORMATS:** 2D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser,
**LENGTH:** 38:00
**PRODUCER/DISTRIBUTOR:** MacGillivray Freeman Films
**CONTACT:** Patty Collins, pcollins@macfreefilms.com
**WEBSITE:** wethemarinesfilm.com

**We, The Marines** is an action-packed, giant screen film that immerses audiences in the unparalleled experience of becoming and serving as a member of the U.S. Marine Corps. Narrated by Academy Award-winning actor and former marine, Gene Hackman, the film uses the giant screen to honor the dedication, the service and the first-hand experiences that create the undeniable bonds among America’s “first responders.” The result is an inspirational and moving tribute to the lives and legacy of the men and women who honor and defend our country. Produced in association with the Marine Corps Heritage Foundation and the National Museum of the Marine Corps.
...a foot-stomping, high-flying, body-bending, soul-lifting new film." — FORBES

Cuba tells the powerful story of a land preserved in time yet poised today on the cusp of dramatic change. Through the eyes of Cuban artists, historians, and marine biologists, audiences will have a rare opportunity to explore this amazing country at a pivotal moment in its history. Produced in association with BBC Earth and the Giant Dome Theater Consortium.

First Steps
Presented in 2D
RELEASE DATE: 2019
FORMATS: 2D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70
LENGTH: 40.00
PRODUCER: Statement Pictures/CNN Films
DISTRIBUTOR: To be determined
CONTACT: Christian Fry, cvfproductions@me.com
WEBSITE: firststepsmovie.com
Timed for release on the 50th anniversary of the first lunar landing, First Steps is a direct-cinema historical experience of the dramatic Apollo 11 mission. With the assistance of NASA and the National Archives, and a global team of researchers and archivists, the film uses never-before-seen footage from 1969 and tells the story entirely through archival materials; giving audiences a thrilling firsthand experience of humanity’s first trip to another world. From the Emmy® Award-winning filmmakers of Dinosaur 13 and CNN Films, First Steps will be available Summer 2019.

Great Barrier Reef
Presented in 2D
RELEASE DATE: June 1, 2018
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 42:00
PRODUCER: December Media
DISTRIBUTOR: MacGillivray Freeman Films
CONTACT: Patty Collins, pcollins@maccreefilms.com
WEBSITE: greatbarrierreel.com
Every year millions of visitors travel by way of fins, flippers and feet to see one of the seven wonders of the natural world: the Great Barrier Reef—a living treasure trove of biodiversity. There is still so much to learn, and knowledge is the key to understanding more about this living Eden. A thriving metropolis populated by a cast of characters straight out of an adventure novel—heroes, bad guys, sidekicks, lovers and clowns—they’re all players in this vast underwater drama. Today, a new generation of reef guardians are committed to protecting this marine reserve, making a difference and sharing their knowledge of this extraordinary ecosystem, the beating heart of the reef. In Great Barrier Reef, learn how this amazing sanctuary has endured for thousands of years and will continue to do so far into the future.

Great Bear Rainforest
Presented in 2D
RELEASE DATE: February 2019
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 40:00
PRODUCER: Spirit Bear Entertainment Inc.
DISTRIBUTOR: MacGillivray Freeman Films
CONTACT: Patty Collins, pcollins@maccreefilms.com
Filmmakers Ian McAllister and Jeff Turner and Executive Producers Kyle Washington and Byron Horner of Spirit Bear Entertainment are partnering with MacGillivray Freeman Films to distribute a beautiful giant screen film about one of the rarest animals on Earth—the fabled all-white Spirit Bear. These remarkable creatures live in the lush temperate rainforests of British Columbia on Canada’s West Coast, where they hold almost mythic status among the region’s indigenous people. Shot exclusively for the giant screen, Great Bear Rainforest (working title) will offer a remarkable journey into one of the planet’s most spectacular wilderness—a land of wolves, grizzly bears, humpback whales, sea lions, sea otters and others—as it explores the secret world of the Spirit Bear.

Hidden Pacific
Presented in 2D
RELEASE DATE: Summer 2018
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70
LENGTH: 40:00 and 20:00
PRODUCER: Tandem Stills + Motion and Giant Screen Films
DISTRIBUTOR: Giant Screen Films
CONTACT: Yasmine Garcia, ygarcia@gsfilms.com
Hidden Pacific will bring the Pacific Ocean’s protected and remote national wildlife refuge islands and marine national monuments to giant screen cinemas. The film captures the beauty of these emerald islets, the conservation efforts to restore their ecosystems, and the diversity of life on both land and reef. Produced in partnership with the U.S. Fish & Wildlife Service.

Lost Empire of Angkor
Presented in 2D
RELEASE DATE: October 2018
FORMATS: 2D and 3D, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 42:00
PRODUCER: Hello Projects Asia
DISTRIBUTOR: K2 Communications

Ed Capelle, edwardcapelle@comcast.net
Follow Australian Olympic snowboarder Torah Bright as she heads from her home in the foothills of the Australian Alps, deep into Alaska’s glaciated Chugach mountain range. Torah dedicated her life to conquering the mountain, and now she’s working with her team to understand and protect these epic ecosystems from an ever-changing world. Standing over the ledge of a 2000-foot vertical drop, we unravel the science behind the earth’s most incredible mountain environments and ride these untamed peaks.

Secrets of the Sands
Presented in 2D
RELEASE DATE: Autumn 2018
FORMATS: 2D, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser
LENGTH: 40:00
PRODUCER: Atlantic Productions
DISTRIBUTOR: Serengeti Entertainment
CONTACT: Melissa Williams, melissaw@serengetientertainment.co.uk
A civilization that rose to become the envy of the world, only to disappear—a mystery waiting to be unlocked by modern archaeologists, scientists and explorers. Following an epic spree of religious building whose scale and ambition rivals the pyramids of Egypt, Angkor is the scene of one of the greatest vanishing acts of all time. Many experts have attempted to provide answers, and theories abound. 1300 carved inscriptions survive on temple doorways, but the Khmer people of Angkor left not a single word explaining their kingdom’s collapse. This will be a visually stunning film…an epic adventure where science, mystery and ancient civilization intersect.
Secrets of the Sands tells the tale of how an ancient people gained a remarkable mastery over one of the most inhospitable landscapes on the planet. This is a captivating human story that stretches back over 125,000 years. A story of ingenuity, survival, and triumph over adversity—centuries-old achievements that underpin the extraordinary success of the United Arab Emirates today. From the coastal people of the Stone Age who retrieved precious pearls deep beneath the waters of the Gulf, to the ancient oasis engineers who tapped into hidden reservoirs of rainwater deep underground, and the pioneering navigators who first tamed wild camels to trek across the largest sand desert in the world. Epic cinematography, stunning CGI and vibrant animations shed new light on one of the most extraordinary chapters in human history.

**Secrets of the Universe**
**Presented in 3D**
**RELEASE DATE:** April 2019
**FORMATS:** 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
**LENGTH:** 40:00
**PRODUCER:** The Stephen Low Company
**DISTRIBUTOR:** K2 Communications

Breakthrough advancements in technology are enabling never-before-possible scientific experimentation. These fascinating machines, such as the $13 billion Large Hadron Collider in Geneva, Switzerland, provide an unprecedented pathway to answers surrounding the nature of our universe. Thousands of scientists, with a diversity of backgrounds and expertise, journey from all over the world to labs like CERN (the host of the LHC) and Fermilab (new host of ICARUS and the highly anticipated DUNE project)—now with a real hope of unlocking the secrets that have long eluded us. Dark matter, antimatter, extra dimensions, and more. Join them as they push the boundaries of the possible, on the cusp of turning science fiction into science fact.

**Snow**
**Presented in 3D**
**RELEASE DATE:** Summer 2019
**FORMATS:** 2D and 3D, IMAX Digital, IMAX Laser, DCI-compliant Digital
**LENGTH:** 40:00 and 20:00
**PRODUCER:** Saint Thomas Production/nWave Studio
**DISTRIBUTOR:** nWave Pictures Distribution

Sea turtles are some of Earth’s most ancient and majestic creatures. For over 100 million years, they have traversed the seas, surviving multiple mass extinctions and playing critical roles in maintaining healthy marine food webs. Not only do these friendly animals captivate us as they peacefully glide through the ocean, but their personal journeys of survival are equally fascinating. These remarkable reptiles will traverse thousands of kilometers of open ocean for as long as 50 years and then, from half a world away, migrate, with mysterious precision, back to the very beach where they were born—to lay eggs that are the foundation of the next generation. With the turtles guiding us, our crews voyaged the same thousands of kilometers to capture the wonders of their habitats. Encountering many kinds of strange and compelling creatures, from enormous breaching whales to the coral wonderland of the Great Barrier Reef—all have been filmed in stunning 3D so that playful sea lions, tiny sea horses and vibrant clown fish will float right out into the theater. Sea turtles remind us just how interconnected we all are in this amazing world and audiences will be moved to cherish them even more.

**Yellowstone: Life in Extremes**
**Presented in 2D**
**RELEASE DATE:** To be determined
**FORMATS:** 2D and 3D, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser
**LENGTH:** 45:00
**PRODUCER:** Grizzly Creek Films
**DISTRIBUTOR:** To be determined
**CONTACT:** Thomas Winston, tomi@grizzlycreekfilms.com

For centuries, a single place in North America has captured the world’s imagination: Yellowstone. But the world’s first National Park has never before been experienced like this. Follow nature’s epic drama as a struggle for survival unfolds over a year in the life of the iconic resident grizzly bears, wolves and bison. The stage is set in a place like no other: a place where the world’s largest active supervolcano fuels the biggest collection of geothermal features anywhere on earth, a place where subzero temperatures and record snowfall dictate harsh trials in a stunning, frozen wonderland, a place where North America’s richest ecosystem offers a rare glimpse into the continent’s wild past. Filmed for two straight years, Yellowstone: Life in Extremes is the most ambitious giant screen production ever attempted in the iconic national park. And, once again, the whole world will be watching.

Dinosaurs of Antarctica
RELEASE DATE: Summer 2019
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70
LENGTH: 40:00 and 20:00
PRODUCER/DISTRIBUTOR: Giant Screen Films
CONTACT: Yasmine Garcia, ygarcia@gsfilms.com
Journey to the south polar landscapes of Earth 100 million years ago, a world of primitive forests and thick swamps—populated by bizarre dinosaurs and colossal amphibians. Enter a surreal world of Permian and Triassic bug-eyed giants and egg-laying mammals—where survival meant enduring the sunless, six-month polar winter surrounded by meat-eaters with night vision. Join Antarctic scientists on a quest to understand Earth at a time of great climatic and geologic upheaval—and to unravel the mystery behind the largest extinction in the history of our planet. Made possible with support by the National Science Foundation.

Einstein’s Incredible Universe
RELEASE DATE: Fall 2020
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70
LENGTH: 40:00
PRODUCER/DISTRIBUTOR: Cosmic Picture
CONTACT: Taran Davies, taran@cosmicpicture.com
WEBSITE: cosmicpicture.com
Albert Einstein is regarded as one of the most famous scientists of all time, his name shorthand for genius, yet few of us fully understand his discoveries and their impact on our lives. Now through a combination of stunning live-action cinematography and immersive CGI, audiences will experience the puzzles that inspired him as a child and the visceral “thought experiments” at the heart of his creative process. Travel through space and time, race a beam of light, plunge into colliding black holes and experience gravitational waves—ripples in the very fabric of the cosmos. Meet two dynamic female astrophysicists who were inspired by Einstein’s ideas in their youth and are now pushing the boundaries of scientific innovation to make their own groundbreaking discoveries.

Expedition Chesapeake, A Journey of Discovery
RELEASE DATE: February 2019
FORMATS: 2D, DCI-compliant Digital
LENGTH: 44:00
PRODUCER: Via Studios Global
DISTRIBUTOR: To be determined
CONTACT: Michael Hanes, mhanes@expeditionchesapeake.com
WEBSITE: expeditionchesapeake.org
Imagine a 64,000 square mile expanse encompassing portions of six states and filled with the stunning natural beauty of the largest estuary in North America. This is Expedition Chesapeake, A Journey of Discovery, presented for the first time on the giant screen. The film tells the story of the Chesapeake Bay through the lives of our ancestors and our neighbors. Our expedition leader, celebrity naturalist Jeff Corwin, introduces us to people from all walks of life who are doing their part to protect and preserve this national treasure. Our journey through the Chesapeake watershed explores the intricate web of relationships among people, plants, animals, land and the most critical natural resource, water. We discover how seemingly small efforts to improve the natural environment where we live also improve the health of the entire Bay. These lessons can be equally applied to watersheds across the nation and around the world.

Fire Fighters
RELEASE DATE: Fall 2019
FORMATS: 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital
LENGTH: 40:00
After years of drought, 120 million trees stand dead in California. That fuel, coupled with an ever-increasing urban sprawl, has set the stage for “Super Fire Sieges.” A new term, for a new age. But, if there is any profession that invokes heroism, it is that of the firefighter. In this new large-format film we enter the lives of these first responders, their training, their brotherhood, and their work, fighting a new breed of fire. Three firefighters with different disciplines will converge on the largest fire in California’s recorded history, the 2017 Thomas Fire.

**Gravity 3D**

**Leonardo Da Vinci, The Last Interview**

**RELEASE DATE:** January 2019  
**FORMATS:** 2D and 3D, DCI-compliant Digital, DCI-compliant Laser, Fulldome Digital, VR  
**LENGTH:** 43:00  
**PRODUCER:** Camera Lucida Productions  
**DISTRIBUTOR:** MacGillivray Freeman Films  
**CONTACT:** Bob Harman, bharman@macfiefilms.com  
During his visit to France in October 1517, the Cardinal of Aragon asked to meet Leonardo da Vinci. The interview, as reported by the cardinal’s secretary, took place in Amboise. On the day of the visit, Leonardo displayed to his visitors three paintings he had brought with him to France in his luggage—the Mona Lisa, the Saint John the Baptist, and the Saint Anne of the Louvre. Crucially, he showed them what nobody would ever see again in its entirety: his boxes of drawings and sketch books, containing his entire researches on human and comparative anatomy, his engineering projects, the plans for his civil engineering and military machines, his flying machines, his theatre sets, his “useful inventions.” Celebrating the 500th anniversary of his death, the film will immerse us into a unique creative universe. A great moment of revelations around his painting, his studies. More than 13,000 pages in all of sketches, drawings and research.

Blue whales are the largest animal ever to live on planet Earth, including the dinosaurs. The transition over millions of years from fish to land mammal is one of life’s most astounding transformations. The return of mammalian life from land to sea—a 40-million year epic—is equally profound. Join intrepid paleontologist adventurers on a giant screen journey to otherworldly ancient seas. Discover one of the most illustrative evolution stories—through the extraordinary Age of Mammals—tracing the early land-dwelling, wolf-like cetaceans to the ocean giants of today.

**The Planets**

**RELEASE DATE:** Late 2019/Early 2020  
**FORMATS:** 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70

Exactly 200 years ago, man first set eyes on Antarctica, the most remote, hostile and other-worldly continent on Earth. Now, in the harshest conditions on our planet, scientists and filmmakers are discovering just how important this icy wilderness is to the future of all life on Earth. From the remote sub-Antarctic islands to the continent’s frozen white heat, audiences will meet the exceptional wildlife that calls this home—from the tips of ice-covered mountains where snow petrels nest, to the cold Southern Ocean where hundreds of Humpback and Fin whales feed together in one of the rarest wildlife spectacles on Earth. We join researchers braving blizzards to reveal how the hardest animals on earth survive, and divers venturing under the ice, on the hunt for new species in an unexplored world. Join us on this giant screen adventure and witness the rarely seen natural wonders of a continent only now revealing its secrets.

**Superpower Dogs**

**RELEASE DATE:** Spring 2019  
**FORMATS:** 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70

**DISTRIBUTOR:** To be determined  
**CONTACT:** Katherine van Hengel, katherine@archipelagofilms.com  

_Tiger Trek: Bhutan 3D_ takes viewers on an immersive 3D giant screen journey into the remote Himalayan Kingdom of Bhutan. It tells a lyrical conservation story that follows the coming of age of a young monk, Tshering, as he grows to understand the people, plants and animals he encounters on a trek across a country early explorers called Shangri-La. Along the way, we discover a critically endangered Bengal tiger and her cubs in the foothills of Everest. We journey through virgin forests, along sparkling rivers, and soar past gravity-defying temples where nature is being celebrated in vibrant ceremonial festivals that date back to the 12th century. We discover Bhutan’s delicate balance between urbanization and tradition, in a land where Gross National Happiness reigns over Gross National Product. _Tiger Trek: Bhutan 3D_ will inspire a sense of awe for the harmony that can be created between people and their environments everywhere.

**Venom 3D: The Bite That Cures**

**RELEASE DATE:** 2020  
**FORMATS:** 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital  
**LENGTH:** 45:00  
**PRODUCER:** December Media/Biopixel  
**DISTRIBUTOR:** December Media Distribution  
**CONTACT:** Mark Bretherton, mark@decembermedia.com.au; Shaun McAlpine, shaun@decembermedia.com.au; Matt Downey, matt@decembermedia.com.au  

The animal kingdom uses venom to hunt and defend itself. These deadly cocktails of toxins unleash multifaceted attacks on their victims, targeting the nervous system, paralyzing muscles, clotting blood and breaking down cells to name a few effects. But that is only part of the story, medical science is discovering that the very same deadly toxins can be used to attack a myriad of debilitating and fatal diseases in humans. From the thrill of the chase to the world of advanced medical science, follow our team of venomologists as they risk their lives to save the lives of others.
**Amazing Mighty Micro Monsters 3D**

Super powers exist. Right here on Earth. And they are beneath our feet. They include beetles that shoot chemical fire and lift enormous weights; scorpions that glow in the dark with astonishing crushing powers; spiders that can make themselves virtually invisible and hypnotise their prey; even a bug that can transform itself into another creature entirely. Prepare to be amazed in this 3D giant screen adventure exploring the hidden world of the super-powered bugs.

**Incredible Predators**  
**Presented in 3D**  
**RELEASE DATE:** January 27, 2017  
**AVAILABLE FORMATS:** 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70  
**LENGTH:** 40:00 and 20:00  
**PRODUCER:** Silverback Films and BBC Earth in association with Giant Screen Films  
**DISTRIBUTOR:** Giant Screen Films and BBC Earth  
**CONTACT:** Yasmine Garcia, ygarcia@gsfilms.com  

Incredible Predators deconstructs the world of major predators as never before, taking an intimate look at the remarkable strategies they use to succeed. Advanced filming techniques expose the planet’s top predators in extraordinary footage, putting the audience right beside them as they hunt—on land, under the sea or in the air. Far from a film about the kill, instead the audience will be emotionally engaged with the key characters, learning how these supreme species must be at the very peak of performance to have any chance of success. Their backstory will be a key part of the narrative; to understand a cheetah’s dilemma you must meet her hungry cubs. Top predators occupy an apex position within the habitats they dominate and, alongside dramatic animal behaviour, Incredible Predators reveals the unique relationship between predators and prey as a fundamental building block of ecology.

**Museum Alive 3D**  
**Presented in 3D**  
**RELEASE DATE:** January 2016  
**AVAILABLE FORMATS:** 2D and 3D, 15/70, IMAX Digital, IMAX Laser, DCI-compliant Digital, DCI-compliant Laser, Dome-customized 15/70, Fulldome Digital  
**LENGTH:** 40:04 and 20:00  
**PRODUCER:** Colossus Productions  
**DISTRIBUTOR:** Serengeti Entertainment  
**CONTACT:** Melissa Williams, melissaw@serengetientertainment.co.uk  
**FILM WEBSITE:** serengetientertainment.com/screeners/museum_alive_3d.html#  

The fantasy that drives sleepovers and fires the imagination of every museum visitor is at the very heart of Museum Alive 3D: what if the exhibits could come to life? In this magical and engaging film, audiences get to follow one lucky visitor who stays in the museum after dark, when the most fascinating extinct prehistoric creatures rise again. Dinosaurs, a sabre-tooth tiger, giant birds and monster reptiles escape their display cases, shake off the dust and explore the museum, by means of stunning special effects. And far from being just fantasy, everything in Museum Alive 3D is firmly rooted in the latest science, through a unique collaboration between leading paleontologists and award-winning CGI artists. Audiences will be treated to a thrilling, spectacular film that both educates and entertains—because as the lights go down, the past comes roaring back to life!
“my jaw hit the floor... among the best images I've ever seen. Film has finally and decisively been surpassed”

Howard George, Michigan Science Center

“absolutely superb... another industry benchmark”

Toby Mensforth, Mensforth Associates

“absolutely incredible! For filmmakers it's one of the best canvases we could ever have”

Michael Dalton Smith, Digital Crossing Films

“revelatory... we really have seen the future”

Daniel Ferguson, Cosmic Picture
